(602) 926-5187 or iblanc@azleg.gov
(602) 926-3132 or rbolding@azleg.gov
(602) 926-3248 or fcarrroll@azleg.gov
(602) 926-3126 or rcobb@azleg.gov
(602) 926-3300 or alieberman@azleg.gov
(602) 926-3193 or jpawlik@azleg.gov
(602) 926-4842 or gpaten@azleg.gov
(602) 926-3012 or tshope@azleg.gov
(602) 926-4467 or ktownsend@azleg.gov

2 Contact your State Representative. If you do not know your State Representative or Legislative District [CLICK HERE](#) and enter your address in the yellow line to locate your state legislative district. Once you have identified your legislative district or if you already know your legislative district [CLICK HERE](#) to find your State Representative along with their contact information.

3 Plan to attend and testify or show-up and register your support of SB1318 in the House of Representatives Education Committee on date TBD. *Testimony might be limited to one-two minutes per speaker.* When you arrive at the House building at 1700 W Washington, register to speak (or support) at one of the kiosks located in the House lobby. Everyone should register, even if you do not want to speak.

—see next page—

SB1318 INCLUDES THE FOLLOWING PROVISIONS:

- AZ Department of Education to designate a dyslexia specialist to work with school districts
- AZ Department to provide a list of educational opportunities related to dyslexia (including one on-line).
 - Training must:
 - Comply with the knowledge and practice standards of an international organization on dyslexia that is designated by the department of education
 - Enable the teacher to understand and recognize dyslexia
 - Enable the teacher to implement instruction that is systematic explicit and evidence-based to meet the educational needs of students with dyslexia.
- The AZ Department of Education shall develop a dyslexia plan that includes:
 - Screening for risk factors of dyslexia (note this screening not a medical diagnosis - they can be done quickly and for very little expense and could be done at the same time students are screened for hearing and vision)
 - Guidance for notifications to parents if a student is identified as being at risk for diagnosis
 - Create the plan in coordination with dyslexia stakeholders
- Dyslexia screening tests shall be cost-effective and include:
 - Phonological awareness
 - Rapid naming skills
 - The correspondence between sound and letters
 - A family history of difficulty in learning to read

WHEN TALKING TO OR EMAILING A LEGISLATOR:

- Always be respectful and non-threatening (you get more with honey)
- If you live in their legislative district let them know. An email from a resident that votes in their district has a bigger impact.
- Tell your personal story - our students are struggling. Let them know why their yes vote is important.
- Let them know they can contact you for more information.
- Thank them for their time and support.

TALKING POINTS ON SB1318

- SB1318 is partnered after legislation passed in Oregon in 2015.
- At least 42 States have dyslexia screening requirements including: Arkansas, Colorado, Delaware, Kentucky, Louisiana, Maine, Massachusetts, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, North Carolina, Ohio, Oregon, South Carolina, Tennessee, Texas, Washington and Wyoming. It is time for Arizona to do the same.
- Up to 1-in-5 people have dyslexia or a reading related disability (approximately 325,000 students in Arizona) according the National Institutes of Health.
- Screening for risk factors for dyslexia is required not a medical diagnosis.
- Screenings can be completed in 5-20 minutes depending on the screening program.
- Screenings can cost between \$0 and \$50 per student depending on the screening program.
- Dyslexia screening can be done along with vision or hearing screening, or during benchmark testing.
- Dyslexia can be identified by age 5 ½ with 92% accuracy (National Institutes of Health).
- 95% of dyslexic students will read proficiently at grade level if they receive the right kind of instruction by 1st grade (National Institutes of Health).
- If dyslexia intervention is delayed until 4th grade it takes four times as long to improve the same skills by the same amount (Susan Hall - Straight Talk About Reading).
- 44% of third graders in Arizona are proficient or highly proficient, 56% are minimally or partially proficient in language arts (2018 AzMerit).
- 75% of students that are poor readers in 3rd grade will remain poor readers in 9th grade (Sally Shaywitz et al 1998).
- Poor reading skills are the leading cause of High School drop outs (US Department of Education).
- 80% of inmates in a Huntsville, Texas, State Prison were functionally illiterate, and 48% were dyslexic (University of Texas Medical Branch at Galveston - 2000).
- Dyslexia can be mild, moderate, severe or profound, there is no connection to IQ.
- Dyslexia is genetic.
